

JUSCA MOLAIWA

Senior Software Quality Assurance Engineer

Mobile: 072-387-1746 | Lonehill, Sandton, 2191 | LinkedIn: [LinkedIn](#) | Portfolio: [QA Portfolio](#)

PROFESSIONAL SUMMARY

Software Quality Assurance Engineer with experience in complex, project-based Agile Scrum environments. Skilled in automation testing, manual testing, scripting, documentation, and defect tracking. Proficient in designing and executing test plans, test cases, and test processes to ensure software quality. Experienced with Java, JavaScript, Python, Selenium, Playwright (Web Automation), Appium (Mobile Automation), RestAssured, Swagger, and Postman (API Testing). Open to learning new tools, programming languages, and technologies to enhance testing efficiency.

CORE COMPETENCIES

- Manual & Automated Testing
- Mobile Automation: Appium (Android/iOS)
- CI/CD Pipeline Implementation (Azure & AWS)
- PostgreSQL & SQL
- Defect Tracking: Azure DevOps
- Test Framework Design & Architecture
- Web Automation: Selenium & Playwright
- API Testing: Postman, RestAssured, Swagger
- Java (TestNG), Maven, Git
- Agile / Scrum Methodology
- Backend Testing & Development
- ISTQB Certified (CTFL v4.0)

WORK EXPERIENCE

Senior Software Quality Assurance Engineer | Entelect | October 2022 – Present

Standard Bank – RPP (Rapid Payments Platform) (November 2025 – Present)

- Implemented quality gates and established a robust QA framework, embedding quality practices throughout the SDLC.
- Led automation efforts to migrate the existing Cypress framework to Playwright, enhancing test reliability, performance, and regression coverage.
- Designed and optimised end-to-end, integration, and regression tests aligned with CI/CD processes.
- Actively collaborated with developers and stakeholders to drive early defect detection and faster delivery.

VodaSure – SQA Automation Engineer (January 2025 – Oct 2025)

- Designed and developed an automated test framework for Frontend, Backend, and Integration testing, ensuring comprehensive coverage and scalability.
- Implemented mocks for third-party services, managed test data, and developed AWS CI/CD pipelines to support continuous integration and delivery across multiple environments.

Sasol Rewards App – SQA Engineer (October 2022 – December 2024)

- Collaborated on ensuring app quality through comprehensive manual and automated testing using Appium, Selenium, and API automation.
- Managed defects and facilitated timely resolutions with developers via Azure DevOps, enhancing app reliability.
- Implemented Azure CI/CD pipelines to streamline testing and deployment, improving the efficiency and reliability of new feature releases.

Software Quality Assurance Engineer | Zulzi On-Demand Pty Ltd | October 2020 – September 2022

Zulzi Internal SQA

- Prioritised and executed test cases, performing automated regression tests after each software update.
- Developed and maintained automated test scripts, ensuring efficient and thorough testing processes.

Checkers Sixty60 App Development

- Leveraged expertise in manual and automated testing to ensure the seamless performance of the Checkers Sixty60 mobile app.
- Developed and implemented robust automated tests using Appium (mobile) and Selenium (web), complemented by API testing.

Customer Service Specialist | Zulzi On-Demand Pty Ltd | *July 2020 – October 2020*

- Obtained and shared customer feedback with colleagues and other departments to facilitate continuous improvement of products and services.
- Evaluated customer information to explore issues, develop potential solutions, and maintain high-quality service delivery.

Customer Service Administrator | Zulzi On-Demand Pty Ltd | *July 2018 – July 2020*

- Answered incoming calls and emails from customers and asked open-ended questions to accurately determine needs.
- Researched and resolved issues with shipments, product damage, and incorrect product quantities.
- Assigned and monitored orders to ensure correct items were purchased and delivered on time.

CERTIFICATIONS

Software Engineering Programme (Back-End Specialization) – ALX Academy	<i>February 2025</i>
ISTQB Foundation Level (CTFL) V4.0 – ASTQB	<i>August 2024</i>
ISTQB Advanced Test Automation Engineer – Udemy Alumni	<i>July 2024</i>
ISTQB Foundation Level (CTFL) V4.0 – Udemy Alumni	<i>July 2024</i>
Continuous Integration and Continuous Delivery (CI/CD) – Coursera	<i>October 2022</i>
Google IT Automation with Python Specialization – Coursera Google	<i>October 2022</i>
Appium – Mobile Testing (Android/iOS) – Udemy Alumni	<i>July 2021</i>
Selenium Python Automation Testing – Udemy Alumni	<i>August 2021</i>
Python Programming – Udemy Alumni	<i>June 2021</i>

EDUCATION

National Diploma in Analytical Chemistry – Vaal University of Technology | 2013 – 2017

Note: One subject remaining for completion.
